#### ALEXA. GAZETTE & VIRGINIA ADVERTISER, PUBLISHED DAILY BY EDGAR SNOWDEN GAZETTE BUILDING, NO. 70 PRINCE STREET.

ALEXA. GAZETTE & VIRGINIA ADVERTISER (FOR THE COUNTRY,)
Published regularly on TUESDAYS, THURS-DAYS and SATURDAYS, at SIX DOLLARS

PER ANNUM, payable in advance. ADVERTISEMENTS inserted at the usual rates, viz: One square (eight lines) one time, \$1.00.

For each subsequent insertion twenty-five cts. additional will be charged. Special contracts will be made with yearly ad-

Marriage and Death Notices, when not exceed-ing eight lines fifty cents.

A BIT OF ANCIENT LEGISLATION.-From the acts of assembly in the colony of Virginia, more than a hundred years ago, the Piedmont Virginian takes the following: -Whereas, it has been represented to this present General Assembly by the inhabitants of the counties of Culpeper and Orange, that they used formerly to catch large quantities of fish in the river, Rarpidan, to the great relief and satisfaction of themselves and families, and they are de-prived of that providential succour by several grist mills that have lately been erected on the said river, whereby the passage of fish up the same is quite obstructed; Be it therefore en-acted, that the owner or proprietor of all and any mill erected on the said river Rappidan, shall in the space of six months from and after the passage of this act, make an opening or slope in their respective mill dams at least ten feet wide, sufficient to let fish pass over such mill dams, and if any owner or proprietor of any such mill shall neglect or refuse to make such opening or slope in his or their mill dams within the time aforsaid, any such owner or proprietor shall forfeit and pay the sum of ten pounds for every ten days he or they shall so neglect, or refuse, one moiety to our Lord the King, his heirs and successors, for the use of the poor of the said counties of Culpeper and Orange and the other moiety to the informer, to be recovered with cost by action of debt or information, in any court of record within this Colony and Dominion.

FRANCIS FAUQUIER, Esq., Governor. JOHN ROBINSON, Speaker.

A SHARK-HUNT AT NORFOLK.-The Nortolk (Va.) Journal of yesterday gives the following description of a shark-hunt in that harbor the day before:

"Yesterday morning a school of sharks was observed in the river opposite Campbell's wharf. So bold were they that several followed the ferryboat in the slip at every trip, seeming to greatly delight in swimming in the wake of the boat. A number of persons provided with harpoons and lines went out in boats to try DRUGGISTS AND APOTHECARIES, their hands at capturing sharks. In a short time a young white man named Thomas succeeded in driving a harpoon into the back of Pure Drugs and Chemicals, Patent Medicines, one of them. When the fish felt the barbed iron enter its flesh it started off down the river at a rattling pace, drawing the boat after it.-It soon became exhausted, however, and was easily towed to McCullough's wharf, upon which it was hauled and dispatched. On being measured it was found to be eight feet three inches long, and fifty five inches in circumference at the largest part of the body. It was then towed around to Campbell's wharf, and drawn up on the land. Hundreds of people visited the wharf for the purpose of seeing the mouster. It was cut open and the liver taken out. Nearly a half bushel of small fish was found in its capacious maw. Another shark was struck by Mr. Thomas, but it broke the

line to which the harpoon was attached and es-

caped, taking the harpoon along with it.

DEAD SHOT. - In Liberty, Clay county, on Friday, Miss Julia Wills, a beautiful and accomplished young lady of seventeen years, killed her brother, aged twenty two. At about 6 o'clock in the morning a dispute arose between Miss Wills and her brother in regard to the conduct of their youngest sister, who had been severely whipped by him. The young man, who has had the reputation of being quarrelsome, became very angry, and seizing an axe raised it with the evident intention of striking her. She screamed violently and rushed toward the house, closely followed by her brother. On reaching the house she seized a shot-gun and warned him not to make any further demonstrations or she would kill him. He paid noattention to her admonition, but advanced, and as he did so she pulled the trigger. Wills fell dead, the contents of the gun having entered his neck a short distance below the chin. There was not a word spoken. She is crazed with grief, a sharp watch is kept upon her movements to prevent her from committing suicide. An inquest was held on the body of young Wills yesterday, and a verdict returned of justifiable homicide. - Kansas City Times.

BLANTON DUNCAN.—The Louisville, Ky., correspondent of the New York Herald has furnished that paper with the following sketch of the leader of the "Straight-out" Democracy: Col. Duncan is a little over six feet high in his slippers, is somewhat swaggering in his gait and wears his clothes loose and comfortable. He is a portly blonde, with a clever face, and is just turning his first half century. His forehead is high and his face physiognomically fine, rather large bluish-gray eyes, a well-set Roman nose that is neither large nor small, a wel-cut mouth and a full beard that does not look full because it is naturally light and sparse and is studded with gray and is not worn long. His general appearance lacks a little of being imposing and his talk is free, decided and selfconfident. He is inexhorable with those who differ with him in matters of mere opinion, and states his own opinions for facts. In physical energy he has few superiors, and once thoroghly interested in a cause, as he is in the Bourbon movement, he is one of its most i ndefati gable workers.

IRISH ENTERPRISE. - A society headed by the Mayor of Cork has been formed in that city for the purpose of procuring more comfortable homes for the mechanics and laborers of that locality. The participators in this scheme have all subscribed a certain sum, which is to be used for purchasing land and building houses to be let to poor families at the same rent they now pay for inferior apartments. After allowing to the subscribers five per ct. on the amount of their subscriptions, the balance is to go into a permanent fund, to be drawn at certain intervals for the purpose of increasing the number of buildings. It will be always proper, as a matter of course, for charitably disposed persons to add to this fund by bequest, although the managers have not yet thought it necessary

to provide for such a contingency. IRON RAILS. - The exports of iron rails from Great Britain for the month ending July 31 were \$4,563 tons; of this amount 41,305 tons were to this country—nearly one-half of the total export. For the seven months of the calendar year the total exports of iron rails have dar year the total exports of iron rails have FINE NO. 1 MACKEREL in kits, for famitons were to this country, against a total export of 564,472 tons to same time last year, and an export to this country of 287 160 tons. an export to this country of 287,169 tons.

DRUGS AND CHEMICALS.

### $\mathbf{TAKE}$

SIMMONS' LIVER DISEASE and indigestion prevail to a greater extent than probably any other malady, and relief is always anxiously sought after. If the liver is regulated in its action, health is almost invariably secured.

Want of action in the Liver, causes headache, constipation, Jaundice, Pain in the shoulders, Cough, Dizzieess, sour Stomach and taste in the discovered Mouth, Billious the Liver, constipant in the Bidons' LIVDiznich for that has ever been discovered. It acts mildly, effectually, and being a simple vegetable compound, can do no injury. It is harmless in every way; it has been used for Forty Years, and hundreds of the good and great from all parts of the country will vouch for

## REGULATOR.

The symptoms of Liver Complaint are uneasiness and pain in the side, Sometimes the pain is in the shoulder, and it is mistaken for rheumatism. The stomach is affected with loss of appetite and sickness, bowels in general costive, sometimes alternating with lax. The head is troubled with pain, and dull, heavy sensation, con-

of having left undone something which ought to have been done. Often complaining of weakness, debility, and low spirits. Sometimes many of the above symptoms attend the disease, and at other times very few of them; but the Liver is generally

FINANCIAL.

LAND GRANT RAILROAD BONDS. THE BEST SECURITY IN THE WORLD.

Among the multitudinous securities, which are pressed on the attention of the capitalist, none offer such tangible and reliable certainty as the carefully-selected bonds of bona fide Railroad Companies, holding Land Grants from the United States Government

ted States Government.
In addition to the advantages, which an ordi-In addition to the advantages, which an ordinary First Mortgage Bond of a successful railroad presents to the Investor, by its first-class security and its ready convertibility at any time, into cash, a Land Grant Railroad Bond offers the nearest possible approach to absolute security, by its being represented not only, by a completed and equipped road, but by the additional pledge of lands, at least equal in value to the amount of the bonds issued.

pledge of lands, at least equal in value to the amount of the bonds issued.

The effect of this is, to place the bonds in the hands of shrewd capitalists—men who look to security above everything, and of this no greater evidence is necessary, than the case of the Illinois Central Railroad Company, by whose owners the State of Illinois has, in the course of a few years, not only been built up and populated, but has also been freed from debt, converting that State from a barren waste into one of the most flourishing States in the Union, and, at the same time, placing the securities of that Company among the most favorite on the Markets of the World.

Many of the companies whose roads are now Many of the companies whose roads are now in course of construction, own land grants on a small scale, but there are about a dozen Companies holding lands to a very large extent, prominent among which we note the St. Jose h and Denver City Railaoad Company, to which association belong 1,700,000 acres of the finest lands in Kansas and Nebraska.

This road is located in Missouri, Nebraska and Kansas, the progress of the two former of which

Kansas, the progress of the two former of which States, is too well known to require further allu-

sion thereto. Kansas, which is the nearest and most prom-ising State beyond the Missouri border, is rapidkansas, which is the heatest and all printing State beyond the Missouri border, is rapidly filling up with hardy agricultural settlers, and there is every indication, that it will soon possess one of the most productive populations in the Union. Many colonies, both from the East and Europe, are locating in the State, and thrifty and growing villages are springing up in every direction, the lands surrounding them being quickly purchased and occupied by Farmers and Stock-raisers. The climate of Kansas is mild and agreeable; the winters are short and snow seldom falls to any considerable depth; the soil is adapted to the cereals and all the fruits and vegetables of the Eastern States; hemp and sorghum are common crops, and cotton has been raised in South Kansas. Eastern Kansas presents a succession of rich prairies, fertile valleys, grass-covered hills with an abundance of yetlow oak, black Walnut, elm, hickory, sycamore, basswood and other timber, along the more, basswood and other timber, along the more, basswood and other timber, along the streams. The middle is more thinly wooded, but the west has many extensive tracts of forest, the best requisites of the finest grazing country. The more important mineral products are granite, gypsum and coal. The entire area is 57,600,000 acres, or enough to make eleven States of the size of Massachusetts.

From this, it is evident that the St. Joseph and Denver City Railroad Company has even a better prospect, than the Illinois Central R. R. Company even had as not only by its construc-

Company ever had, as not only by its construc-tion it becomes the Middle Route from the At-lantic to the Pacific Ocean, but, by its cut-off line from St. Joseph to Fort Kearney, it secures, from the start, all the passenger and freight traffic that it can move, furnishing thereby, irrespective of the Land Grant, undeniable security to the bondholder. When to this, is added the fact, that the other Land Grant Railroad Companies have sold their lands at all sorts of prices from a maximum of \$14 per acre down to a minimum of \$4.18 per acre, it will be seen that, if this Company should realize only \$4 per acre for their lands, without taking into any account the profits of their traffic, their 1,700,000 acres will produce at least \$1,500,000 above their

mortgage, which is only \$5,500,000 above their mortgage, which is only \$5,500,000.

The road, which is being most substantially and thoroughly built and is being rapidly hurried to completion, will at once form the most important link in the great railroad system of the United States. It will shorten the time and distance between San Francisco and the cities of the East, and is of special importance to the the East, and is of special importance to the traveller from the Pacific Slope, who desires to reach St. Louis or any part of the country lying south or southwest of that rapidly-growing city. Immediately on its completion, it is destined to receive a large share of the business going East or West, beyond the Missouri River, and its managers have shown a wise foresight, in equip-ping the line with an abundance of rolling stock of all kinds, to meet the demand that is sure to

That the great advantages of this road have been appreciated by capitalists, is shown by the rapidity with which its bonds have been taken up. Only a limited amount of them remain un-sold and are looked on, as an investment of the highest order. The moneys received from the sale of lands, form a sinking fund for the redemption of the bonds, and the prospect is, that long before they fall due, the sale of the lands will accumulate sufficient funds, to meet them without trenching in any way upon the business

The interests of the bondholder have been The interests of the bondholder have been guarded in every shape and way. The bonds have thirty years to run from May, 1870 and are payable in gold in the City of New York. They bear interest at the rate of Eight per ct. per annum, payable in Gold semi-annually, free of tax, on the 15th days of Feb. and August, in New York, London, or Frankfort-on-Main, at the option of the holder, without notice, and in the currency of the country in which the and in the currency of the country in which the Coupons are presented. Although these are coupon bonds they may be registered in the owner's name with the Coupons on, or they can be converted into a registered bond by the sur-render of the Coupons, and the interest paid to the registered owner at any of the three points

where the Coupons are payable. The management of this enterprise is in the hands of thorough practical men, and the Financial Agents are the well-known, experienced banking firm of Tanner & Co., 11 Wall Street,

New York.

Altogether it is believed that no loan was ever offered in this market, which combines every element of security with such a high rate of interest of the security with such a high rate of interest of the security with such a high rate of interest of the security with such a high rate of interest of the security with such as high rate of interest of the security with such as the security with su terest, and it is certain that Capitalists do not often have the opportunity of placing their money, for so long a time on a security, producing more than eight per cent. interest in

These bonds are of the denomination of \$100, \$500 and \$1000, and are for sale at 971 and accrued interest, in currency.

The agents for their sale in this city are Messrs. W. D. CORSE & CO.,

who confidently recommend them as a first-class security, and who have already placed a large number in the hands of some of our most prudent and sagacious citizens. aug 24-tf

may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a physician.

ORGANIC WEAKNESS.

Immediately cured and Full Vigor Restored.
This distressing Affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulg-encies. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that The new firm hopes to share a portion of the public patronage, and invites all to call and examine their fine and handsome assortment of PARLOR SUITES, in Hair Cloth, Reps and Silk Brocatel; Walnut and Oak Chamber Suites in every variety. Those in need of Furniture will do well to examine our stock before purchasing, as we are

A CURE WARRANTED IN TWO DAY Relief in Six Hours! No Mercury!

Persons ruined by Ignorant, Trifling Pretenders and their Deadly Poison, should apply immediately.

Member of the Royal College of Surgery of London, Graduate of one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended

sometimes with derangement of mind, were cured immediately. TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind, unfitting them for either business, study, society or mar riage.
These are some of the sad and melancholy effects produced by the early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of muscular Pow-

er, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symtoms of Consump-MENTALLY .- The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Fore-bodings, Aversion to Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils

produced. Thousands of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of Consumption.

YOUNG MEN Who have injured themselves by a certain practice, already described, a habit frequently learned from evil companions or at school, the effects of which are nightly felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

life by the consequence of deviating from the path of nature, and indulging in pernicious habits. Such persons must, before comtemplat-

What a pity that a young man, the hope of his country, the pride of his parents, should be snatched from all prospects and enjoyment of

ing. MARRIAGE Reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view, the mlnd becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another is blighted with our own.

DISEASES OF IMPRUDENCE. When the misguided and imprudent votary of pleasure finds that he has imbibed the seeds o this painful disease, it too often happens that an this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery de ters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease makes their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease be-

comes a horrid object of commisseration till death puts a period to his dreadful suffering, by sending him to that undiscovered country "from Whence no traveller returns."

It is a melancholy fact that thousands DIE victims to this terrible disease, through falling into the hands of ignorant or unskilful PRETENDERS, who, by the use of that deadly Poison, Mercury, &c., destroy the constitution, and incapable of curing, keep the unhappy sufferer month after month taking their noxious or injurious compounds, and instead of heirs are whence no traveller returns." injurious compounds, and instead of being re-stored to a renewal of Life, Vigor and Happiness in despair leaves him with ruined Health to sigh over his galling disappointment.
